Re: City of Anderson Petroleum Brownfields Assessment Project

Dear Ms. Price:

Thank you for your time today. In April the United States Environmental Protection Agency announced that the South Carolina Department of Health and Environmental Control (SCDHEC) would receive a \$200,000 grant to inventory and assess petroleum brownfield sites in the City of Anderson. A condition of the grant requires the SCDHEC to establish a local record storage area (information repository) for the public that contains all correspondence, reports, and documents pertaining to the project. I have found that the local public library is the best location for the storage area.

Included in this package are current project documents and an index. In the future I will send additional documents and an updated index that should be added to the project file. Information handouts provided to the public will mention that the information repository is located at the reference desk of the Anderson County Public Library at 300 North McDuffie Street in Anderson. It is planned that the grant will run for 36 months.

Thank you for your help. Please contact me if you have any questions or comments at (803) 896-6848 or via e-mail at berenbm@dhc.sc.gov.

Sincerely,

Mark Berenbrok, Petroleum Brownfields Coordinator
